‘There was only one place that told the unadulterated truth: the history of Gnosticism going right back to the Garden of Eden and up to the siege of Montségur. It was the Cathar Bible, one of the two great treasures smuggled out of Montségur before it fell to the Catholic Crusaders.

We are the Shining Ones, the Holy Light. In the past, a group known as the College controlled the Illuminati, but a shadow leadership was established to take over from the College if they should be killed or captured. In the 1930s, the College had become corrupted and consisted entirely of members of the Nazi Party. By the end of May 1945, all but one were dead,

'The second form of the question, the main version, is the one Perceval failed to ask the Grail King after he was first shown the procession of the Grail Hallows: Whom does the Grail serve? To a Christian, the straightforward answer is that it serves the Grail King. For Gnostics it means do you believe in the True God or Satan? The Grail and the Spear are Christian symbols. The Sword and the Dish are Gnostic symbols relating to John the Baptist and Simon Magus. Christ, the son of the Creator, is the spawn of Satan, while John and Simon are servants of the True God.

Big Pat said that a Nazi scientist in the Second World War had discovered a set of four extraordinary linked drugs. They belonged to a new class of drugs called transpathics that apparently allowed users to have direct access to others’ feelings. The Nazi scientist hadn’t been able to manufacture them in any significant quantities and it was thought that none of these experimental drugs had survived the war.

'In 1943, the OSS gave President Roosevelt a top-secret briefing after they intercepted Soviet intelligence communications saying that there was credible evidence that Jews released from Auschwitz had fought for the Nazis on the Russian Front as suicidal shock units. Somehow, the minds of the Jewish prisoners had been hijacked and they'd become human robots, dying in the service of their worst enemies. A weapon like that couldn't be ignored. 'Under Operation Paperclip of 1947, Nazi scientists, psychologists and psychiatrists who worked on mind control programmes and other high-profile scientific projects were secretly brought to the States. Nazi mind-manipulation techniques were then used on African-American prisoners in jails in Mississippi and Alabama, and on retarded inmates in mental institutions all over the country. Hypnosis, narco-hypnosis, drugs, radiation, psycho-electronics, electroshock, even brain surgery were all used in the search for effective mind control. 'Eventually, in 1950, all the unofficial projects were brought together under the code-name Bluebird. Its scope was later broadened and it was re-christened several times, most famously as MK-Ultra. In 1990, General Clark gave it its current name: Alice Through the Looking Glass.

Sin for Salvation was a religious doctrine preached by Carpocrates, a notorious heretic from the second century CE. One of our top analysts said Carpocrates' ideas were perfect for risk-takers, giving them the chance to behave as badly as they liked. Believers in Sin for Salvation would make ideal killers. They hated the material world and longed to commit sins to earn their return ticket to their heaven. The bigger the sin, the better they liked it. They'd feel no guilt no matter what they did. Perfect criminals.

'Don't underestimate our resources. It would be more practical to believe in us than in God. Believe me, we're as close as you'll ever get. Do you need me to remind you of the kind of the power we have?' Clark traced his finger across his forehead, as though he were about to open his skull and let endless secrets pour out. 'Sarah shot Dexter in broad daylight in Central Park in front of scores of people and was arrested within seconds. She wasn't charged. No police report was ever filed. The story didn't appear on TV or in any newspaper. You won't find a mention of that incident anywhere.' He leaned forward. 'That's how powerful we are. We control everything worth controlling. Forget ZOG, Bohemian Grove, the Bilderberg Group. When you hear conspiracy theorists saying that the people who control the world can sit around one table and have lunch together, they mean us.'

There are eleven hundred billionaires in the world and we have twice as much wealth as the poorest two and half billion people. The world's fifty largest financial institutions control a third of the world's assets. The world's two hundred and fifty biggest companies generate sales that are a third of the entire world's GDP. Text: And now we shall explain the origin of evil. The Book of Eden says that the Serpent device generates four imperceptible 'soul beams' that directly target the human soul. One beam makes whoever it touches obsessed with being superior to others. One beam makes those it touches obsessed with the desire for everyone to be equal. One beam makes those it touches prepared to acknowledge the superiority of some people. The final beam makes those it touches prepared to deny that anyone is superior. The first beam creates the evils of the world: tyrants, the super rich, celebrities, discrimination, elitism, arrogance, contempt, vanity, greed, materialism. It creates political movements such as Fascism, Oligarchy, Plutocracy, Conservatism, Apartheid, Militarism. It's the Right Wing beam. The second beam creates goodness in the world: it produces carers and helpers, fosters respect for others, it spreads kindness, unity, community, compassion, humility, charity, spirituality. It leads to pacifism, social democracy, civil rights, human rights, community, social welfare. It's the Left Wing beam. The third beam makes people susceptible to the first beam and prepared to

The Coded Series—My Notes & Clippings

go along with the divisive, unequal, unjust world the first beam creates. The last beam does the same job for the second beam: it makes people prepared to go along with equality, fraternity and liberty. There are several rules. 1) If the first beam touches your soul, no other beams can affect you. 2) If the second beam touches your soul, no other beams can affect you. 3) If either of the third or fourth beams touches your soul, neither of the first two beams can affect you. 4) If the third beam touches your soul, the fourth beam will affect you too. 5) If the fourth beam touches your soul, the third beam will affect you too. In short, the first two beams give you a fanatical adherence to one way of life or its opposite, while the latter two beams make you susceptible to both ways of life. A man who in one environment may become a willing Nazi may, in another, be a charity worker.

To really get life, to really go for it, you must have nothing to lose. Only then can you gain everything.'

The Soul Camera (CS-05?)

This book was due 21 September 2012 but was never published. Here's what we can glean about it from the other books.

From 'The Illuminist Army' (TD-01):

"Imagine a camera that takes pictures of the human soul. Imagine it could detect how good or evil you are. Imagine it could analyze every aspect of your personality. Imagine it could tell you how many times you have been reincarnated. Imagine it could tell you how close you are to achieving gnosis and becoming God! Imagine that a real secret society already possesses such a camera, which operates in accordance with the inviolable, fundamental principles of the cosmos. ... The Illuminated Soul and The Illuminati's Book of the Dead will, like The Soul Camera, now no longer be published... you can thank the trolls for the non-appearance of these books."

From 'The Citizen Army' (TD-02):

"Thanks to the Cypher Gang, we won't be publishing The Soul Camera. Trolls destroy knowledge. They love destroying knowledge. Trolls spend their lives ruining other people's lives. What's more, they get plenty of support and encouragement from "middlemen", and from every single person who takes no action against the trolls. Knowledge has to be fought for in a world full of the forces of anti-knowledge. There's no point in wanting to read books if you're not willing to fight on behalf of the authors that write them in the face of immense hostility and negativity. We're not going to waste our time bringing out books for such an ungrateful audience ... people who did fuck all to stand up for us. ... Being a doer is not enough. The most evil people in the world are doers. Cypher is a doer. We need those who would pass a soul camera test. We have to eradicate all those in our movement who would fail such a test. If we cannot do this, the movement will never occur."

From 'Contra Mundum' (PS-05):

"The Soul Camera is a device used on individuals. The ultimate aim is to have a global soul scanner, to reveal the state of the souls of everyone on earth – to identify all of the psychopaths, narcissists, sadists, trolls, irrationalists, and so on, and all the good, decent, rational people who can help to build a better world, a heaven on earth."

From 'Inside-Dopesters and Conspiracy Theories' (AES-07):

"The Soul Camera, a novel that will appear in 2012, will dramatize the procedure that occurs when a seeker is recruited, and it will also reveal the perils that recruits face from the enemies of the Grail. ... The Illuminati are

on the verge of throwing light on their mysterious secret society. The Soul Camera – a carefully coded work of fiction – will reveal many concealed facts about the most esoteric organisation on earth.

- What is the religion of the Illuminati?
- What is their irrefutable evidence that their religion is true while all others are false?
- Why are they alone the true guardians of the strangest and most compelling object of all – the Holy Grail?
- Why are they unable to come forth and reveal their evidence to the world?
- Who are their sworn enemies who have waged war for millennia against the Illuminati?
- Which people are eligible to be recruited by the Illuminati and how does the process take place?
- Why can some people never be recruited by the Illuminati?
- Why is the Illuminati's great secret the most shocking in human history?
- Why are the Illuminati so reviled and feared by so many when, in fact, they are humanity's greatest benefactors, those who stand between humanity and perpetual darkness and torment?
- What is the nature of the secret society that stands in the shadows in bitter and deadly opposition to the Illuminati, controlling the Old World Order, and wielding power over nearly the whole of humanity?

With the fateful year of 2012 approaching, "The Soul Camera" will provide the clearest insights ever provided into the mysterious and arcane world of the Illuminati and their astonishing mission to save humanity."

From 'How to Become God' (HGS-02):

"This novel, originally due in 2009 and then 2010, will not now appear until 2012. 21 December 2012 has been pencilled in as its suitably portentous release date. One must always have an eye to "fulfilling the prophecies". After all, it took Jesus Christ a long way! In 2009, the novel was assigned to a "ghost writer", but various issues arose and it has now been reassigned to one of the three Illuminists responsible for this series of books. It must therefore await the completion of this series. Moreover, it will be influenced by the political situation in the USA in the election year of 2012. The Soul Camera will be the culmination of the Illuminati's current communication project to bring all interested parties to the same level of theoretical knowledge as any sixth Degree Illuminatus. No other secret

society in history has ever made so much unique knowledge available, and all for free."

From 'The Hidden Masters' (DS-06):

"We will be saying much more about the archons and their malignant influence on history in a future book called The Soul Camera."

From 'The Illuminati' (IS-01):

"Q: Are you claiming that the three novels partially reveal a great secret? A: Yes. Let me be perfectly clear. The three novels are called The Millionaires' Death Club, Prohibition A and The Armageddon Conspiracy. The fourth novel in the series (to be called The Soul Camera) will complete the revelation of the entire secret. But only for those with eyes to see, of course. ... The Soul Camera will dramatize the procedure that occurs when a seeker is recruited, and it will also reveal the perils that recruits face from the enemies of the Grail. ... Q: WILL THE ILLUMINATI'S forthcoming book The Soul Camera reveal any of their secrets? A: This book will be a mixture of fact, fiction and disguised facts. The well-informed will gain many insights. For others, it will simply be a story. It is in the name of truth, justice and freedom that the Illuminati will one day deliver the just, equitable and meritocratic New World Order humanity is crying out for. ... We may be saying much more about the archons and their malignant influence on history in the forthcoming book The Soul Camera."

From 'The Illuminati Manifesto' (IS-06):

"The three non-fiction books we have mentioned* will form the technical background for the coded work of fiction called The Soul Camera by Mike Hockney, due on 21 December 2012. IMAGINE A CAMERA THAT takes pictures of the human soul. Imagine it could detect how good or evil you are. Imagine it could analyze every aspect of your personality. Imagine it could tell you how many times you have been reincarnated. Imagine it could tell you how close you are to achieving gnosis and becoming GOD! Imagine that a real secret society already possesses such a camera, which operates in accordance with the inviolable, fundamental principles of the cosmos – six-dimensional mathematical idealism (as opposed to the bogus 11-dimensional mathematical materialism of contemporary science based on "M-theory"). The Paradigm Shift is coming. Humanity is about to enter its divine phase. The Soul Camera by the Illuminati. Due on 21 December 2012."

* Namely The God Factory (GS-02), How to Create the Universe (GS-32), The Illuminated Soul (which was never published).

From 'The Book of Mind - Seeking Gnosis' (TS-05):

"Q: And you can detect with your soul camera device whether or not someone belongs to the first-class humans? A: The Soul Camera shows us exactly who is fit to join our ancient Order, and who might be fit in a future incarnation. ... the INTJs and INTPs are the ones who are able to build the gadgets, the starships, the stargates, the OBE and NDE devices, the soul cameras, the Truth Ray, the Emotion Ray, the Beauty Ray, the lucid dreaming interface, and so on, that will revolutionize humanity and prepare it to be divine."

From 'The Book of Thought - Mind Matters' (TS-06):

"People such as Leibniz also involve themselves with objects of power, objects on a par with the Holy Grail. The Soul Camera is such an object. But the question is, what do you do with an object of incredible power? You would destroy the evolution of the human race if you openly used it, if you used it generally rather than particularly. Imagine you could tell everyone on earth about the status of their individual souls. Humanity would never be the same again. The result could be calamitous. So, nothing is ever done on a global basis."

From 'World, Overworld, Underworld, Dreamworld' (GS-13):

"Some Native Americans were convinced that a photograph stole their soul. If your reflection is your soul, and the camera captures your reflection then it has captured and imprisoned your soul. Careful with your camera! With your Soul Camera."

From 'Black Holes Are Souls' (GS-23):

"The Soul Camera = the Camera that takes a picture of the human soul. What is the connection between it and the Grail? No one who fails the Soul Camera test can ever be admitted to the presence of the Grail."

From 'Psychophysics' (GS-27):

"Science can never tell you about ultimate reality. Only math can. The soul camera is the greatest instrument conceivable. It provides the infallible proof that Illuminism is true. But, if you're rational, you already knew that. ... So, if we can detect the frequency domain after all, that means something incredible - we can construct a soul camera! We can take photos of the soul. The soul is light and what is "photography"? – light writing! Of course, this is no ordinary camera. To use Swedenborg's term, we might call it a "correspondence" camera. Swedenborg defined a "correspondence" as a basic relationship between two levels of existence. ... The obvious thing that science can't detect is the immaterial, dimensionless soul. ... Yet that's not actually true. If science accepted that the soul is made of light, it would eventually be able to construct a soul camera!"

From 'The War of the Ghosts and Machines' (GS-28):

"The device least imaginable to a scientist is a soul camera - a ghost detector! ... Buddhists don't spend any time building hyperdrives for spaceships, that's for sure. They're not making a Soul Camera."

From 'Gödel Versus Wittgenstein' (GS-29):

"Q: ... This is what I have always presumed the Soul Camera was for; a natural soul sorter so to speak, akin to Plato's soul grades, though whether the Soul Camera was a necessary lie, or a truism is another story. Can we empirically view the soul and gather information on it? A: ... Earth is a mirror of heaven. The cosmic hologram is the product of the Singularity. From the study of the hologram we can "see" the contents of the Singularity. It's all in the math ... in the Fourier transform. ... God has his own Soul Camera. In fact, we might actually call the Soul Camera the God Camera. It gives us God's view of souls. It allows us to judge who are the damned (the Abrahamists, Karmists and materialists) and who are the elect (the enlightened, the illuminated ones, the Illuminati!)."

From 'The Holographic Soul' (GS-30):

"Naturally, the Soul Camera reflects holographic principles. ... Of course, "matter" is itself nothing but "broken" light, so, really, all we are dealing with is light. Reality is a dual-aspect monistic system. Matter can be regarded as "dimensional" light whereas light itself is dimensionless = mental. All of these considerations are, naturally, relevant to the Soul Camera. ... The mind/soul, zero/infinity, light/broken light relationship, matter, the mind-matter interaction, Fourier mathematics, the Soul Camera, the afterlife, reincarnation, becoming God, the Hegelian dialectic, Leibniz's Monadology, the ancient principle of as above, so below, and holography, are all implicit in this diagram. It's the basis of the grand unified, final theory of everything."

From 'How to Create the Universe' (GS-32):

"Q: ... it should be possible one day to analyze the frequency information of something as advanced as a human monad soul. I refer of course to the Soul Camera and it is my opinion that such a concept is not merely a literary device, but an actual physical device that can actually display the waveform contents of any monad, and that these waveform contents will correspond to the various natures of the soul. ..."
